

**DSCSA Purpose:** To ensure that prescription drugs can be traced through the supply chain, from manufacturers to dispensers.

# Important DSCSA Updates – *What You Need to Know*

1

## Locating GLNs

GLNs can be found in Customer Center under DSCSA Report, on McKesson Specialty invoices and packing slips, or by contacting your Account Manager

2

## Obtaining Serialized Data

Access serialized transaction data via Customer Center or Lynx by navigating to the respective DSCSA reports, selecting GLNs and exporting the data

3

## Purchasing Drugs Through Non-McKesson Channels

Ensure all wholesalers or distributors have your GLNs to avoid service disruptions when purchasing drugs through non-McKesson channels

4

## Tracking Transfers

Drug transfers within a common entity without a change of ownership are exempt from trace and trace requirements

5

## Enforcement Exemptions by the FDA

The FDA granted enforcement exemptions to entities, allowing more time to achieve compliance. Enforcement will begin **5/27/25** for manufacturers, **8/27/25** for distributors, **11/27/25** for larger dispensers and **11/27/26** for small dispensers

**McKesson**

# DSCSA – General Overview

## Goal: Secure drug supply chain

- Protects patients from receiving harmful drugs, including counterfeit, stolen, or contaminated drugs
- The DSCSA aims to create a fully serialized pharmaceutical supply chain, allowing every drug and ingredient to be traced from the manufacturer to its final destination
- Facilitates a more efficient supply chain by enabling a seamless electronic flow of data between supply chain partners

## GLN (Global Location Number) is a globally unique identifier

- Issued by [GS1](#)
- Sold-To GLNs identify “who purchased”
- Ship-To GLNs identify “where it was shipped”
- GLNs can be viewed in the following ways:
  - Customer Center - DSCSA Report; invoices; packing slips
  - Lynx - DSCSA Traceability Report
  - Account Representatives and CSMs can provide GLN lists as needed

# DSCSA – *Risks and Challenges*

## **Purchasing from non-McKesson sources**

- Ensure non-McKesson suppliers are trusted trading partners in compliance with all DSCSA requirements **and** have your GLNs on file to prevent shipment disruption
- If not utilizing a third-party data aggregator, tracing data from non-McKesson suppliers will need to be independently accessed

## **Transferring product to other practices**

- There are no restrictions to intra-practice transfers
- Transfers to other entities such as a local hospital are permissible when patient-specific
  - Recommend developing a log to track external transfers

## **Returns process**

- Serialization confirmation will be required for saleable returns
- Required data will be searchable via Customer Center Portal or Lynx

# DSCSA – *Key Dates*

- The DSCSA Stabilization Period will continue; and compliance will become enforceable on a phased approach throughout the next 24 months
- McKesson Specialty, Pharma, and MPB have already implemented order holds for accounts with missing GLNs
- McKesson Medical Surgical (MMS) will implement order holds starting **November 4, 2024**
- McKesson is developing an enterprise GLN reconciliation process across all business units

## **Small Business Dispenser Exemptions (through November 27, 2026)**

- Dispensers with 25 or fewer full-time licensed pharmacists or qualified pharmacy technicians
- Exemption is automatic
- Must have GLNs on file with suppliers, have SOPs for reporting suspect product, and comply with McKesson Returns Process
- May be unnecessary because all reporting requirements are met with McKesson portals

**Online Reporting**

Welcome to our new reporting landing page! We have improved the layout and functionality of your favorite reports while adding online access to Drug Economics Forecast, Manufacturer Price Changes, Purchase History and our full Product Catalog. To learn more, please download this handy [User Guide](#) and be on the lookout for more exciting upgrades to the site over the coming months.

- Product Catalog**  
Access a list of real-time, account-specific pricing of all the products available to you.
- Purchase History By Line-Item Detail**  
Review the full details of your purchase history at the individual line-item level. Filter by date range, delivery number, NDC number and other options.
- Purchase History Grouped By Product**  
Retrieve a condensed view of your purchase history, shown by product. Filter by date range, NDC number and other options.
- Drug Economics Forecast**  
Analyze a detailed report of your current drug purchasing and reimbursement trends to help you with budget forecasting.
- Manufacturer Price Changes (WAC Pricing)**  
Stay up to date on all manufacturer price changes or quickly search for price changes over a set period of time.
- Price Comparison**  
Compare your current contract product pricing with a previous date and evaluate historical pricing patterns for specific products.
- Lynx Mobile® Reports**  
Access your Lynx Mobile reporting (Lynx Mobile customers only).
- DSCSA Report**  
Review the full details of your DSCSA reporting at the individual line item level. Filter by date range, Global Location number and other optional filter options.

**Run Report** (for Product Catalog, Purchase History By Line-Item Detail, Purchase History Grouped By Product, Drug Economics Forecast, Manufacturer Price Changes, Price Comparison, Lynx Mobile Reports, and DSCSA Report)

**Click DSCSA Report.**

**Video Series: Biosimilar Master Class**  
Navigate the biosimilar landscape with our team of expert clinical specialists and business advisors.

# Customer Center: DSCSA Reports

The screenshot shows the McKesson Customer Center interface. At the top, there is a navigation bar with the McKesson logo and a menu. Below the menu, there are several tabs: ORDER CENTER, INVOICE & PAYMENTS, and REPORTS. The REPORTS tab is selected, and the DSCSA Report sub-tab is active. The main content area displays the 'Working on Account' section, which includes a dropdown menu for the account number (0000202535) and the account name (Contra Costa Oncology). Below this, there is a 'Search Criteria' section with fields for 'Sold to GLN', 'Ship to GLN', 'From Date', 'To Date', and 'SSCC or SGTIN'. A callout box with a yellow background and a purple border is overlaid on the 'Working on Account' section, containing the text: 'Working on Account displays the current account number. Click the account number to switch accounts.' A 'Next' button is also visible in the callout box.

# DSCSA – *Practice Action Items*

- **Have policies for suspect or illegitimate product investigations**
  - Sample P&P
  - Ensure staff are familiar with quarantine and reporting obligations
  - Ensure staff know how and have access to generate traceability reports
- **Review State Board regulation and requirements from applicable accreditation bodies**
- **Document drug transfers between outside entities as patient-specific whenever possible, and record in a log**
- **Provide your GLNs to all non-McKesson suppliers to prevent shipment disruptions**
- **Visit the Knowledge Center to access webinars, FAQs, and additional resources**
